

Epigard

Heavy duty and flexible
waterproof coating.

Resistant to abrasion
& chemical attack

Description

Two component high build solvent free epoxy coating, designed for industrial, chemical, agricultural and sewage treatment plants. Epigard provides long term protection for concrete and steel structures. Suitable for above and below ground applications.

System Benefits

- Easily installed by brush or roller
- Exceptional inter-coat bond strength
- Low odour & suitable for confined spaces
- Inbuilt flexibility; 30% elongation
- Long term protection
- Resistant to agricultural slurry & sewage effluent
- Resistant to a wide range of chemicals
- Inert & non-hazardous
- Protects against corrosion
- Prevents sulphate attack

Standard Compliance

Conforms to EN1504-2
Surface protection system for concrete.

Applications

- Concrete & Steel structures
- Bearing shelves on highway structures
- Abutments & wing walls
- Coastal defenses, harbor walls & jetties
- Sewage treatment works
- Drainage channels, spillways & culverts
- Oil refineries & chemical works
